

FLEXIBLE SIM / ESIM / ISIM SOLUTIONS TO BRING YOU SERENITY IN YOUR BUSINESS

TRASNA's team has decades of experience in security and connectivity. As such, we continue to contribute to the GSMA ecosystem by offering a wide range of mobile solutions for trusted IoT through our SIM cards, eSIM and remote SIM provisioning technologies. We support our customers whether they are MNOs, MVNOs, OEMs or IoT connectivity operators to meet the different market connectivity requirements and we facilitate secure access to mobile networks worldwide.

IMPROVE YOUR LOGISTICS & MANUFACTURING

M2M REMOTE SIM PROVISIONING

GSMA compliant M2M RSP for IoT devices.

For manufacturers or Mobile Network Operators, we are looking to provide eSIM flexibility to their customers.

OPEN & FLEXIBLE ECOSYSTEM

CLOUD LPA

Benefit from the GSMA flexible and open consumer RSP ecosystem. Our CLOUD LPA empowers your devices to download consumer subscriptions

SIM CARD PRODUCTION

CUT COSTS WITHOUT COMPROMISING ON QUALITY

We provide top quality at competitive prices SIM cards. We do continuous testing on our products (BAP cards, new materials, field & environmental testing).

Our QA unit, who are experts in modem behaviour, can manage your test plan or help you to define one.

SIM PROFILE & APPLETS

DEDICATED DEVELOPMENT TEAM

Multiple applets including Multi - IMSI, IMEI Tracking, Call Back

Additionally, Custom Java Card™ applets can be developed on demand as part of Profile developments.

PLATFORMS

OTA, Device Management,
M2M RSP
Consumer RSP

SMARTCARD ASSETS

SIM card/M2M Card
Applet development (including Multi-IMSI)
Profile development, OS porting
Any Form Factor Grades
Any Fulfilment Packaging

SERVICE

Deep Engineering capabilities
Custom Software development
Outsourcing services

RECOMMENDED PLATFORMS

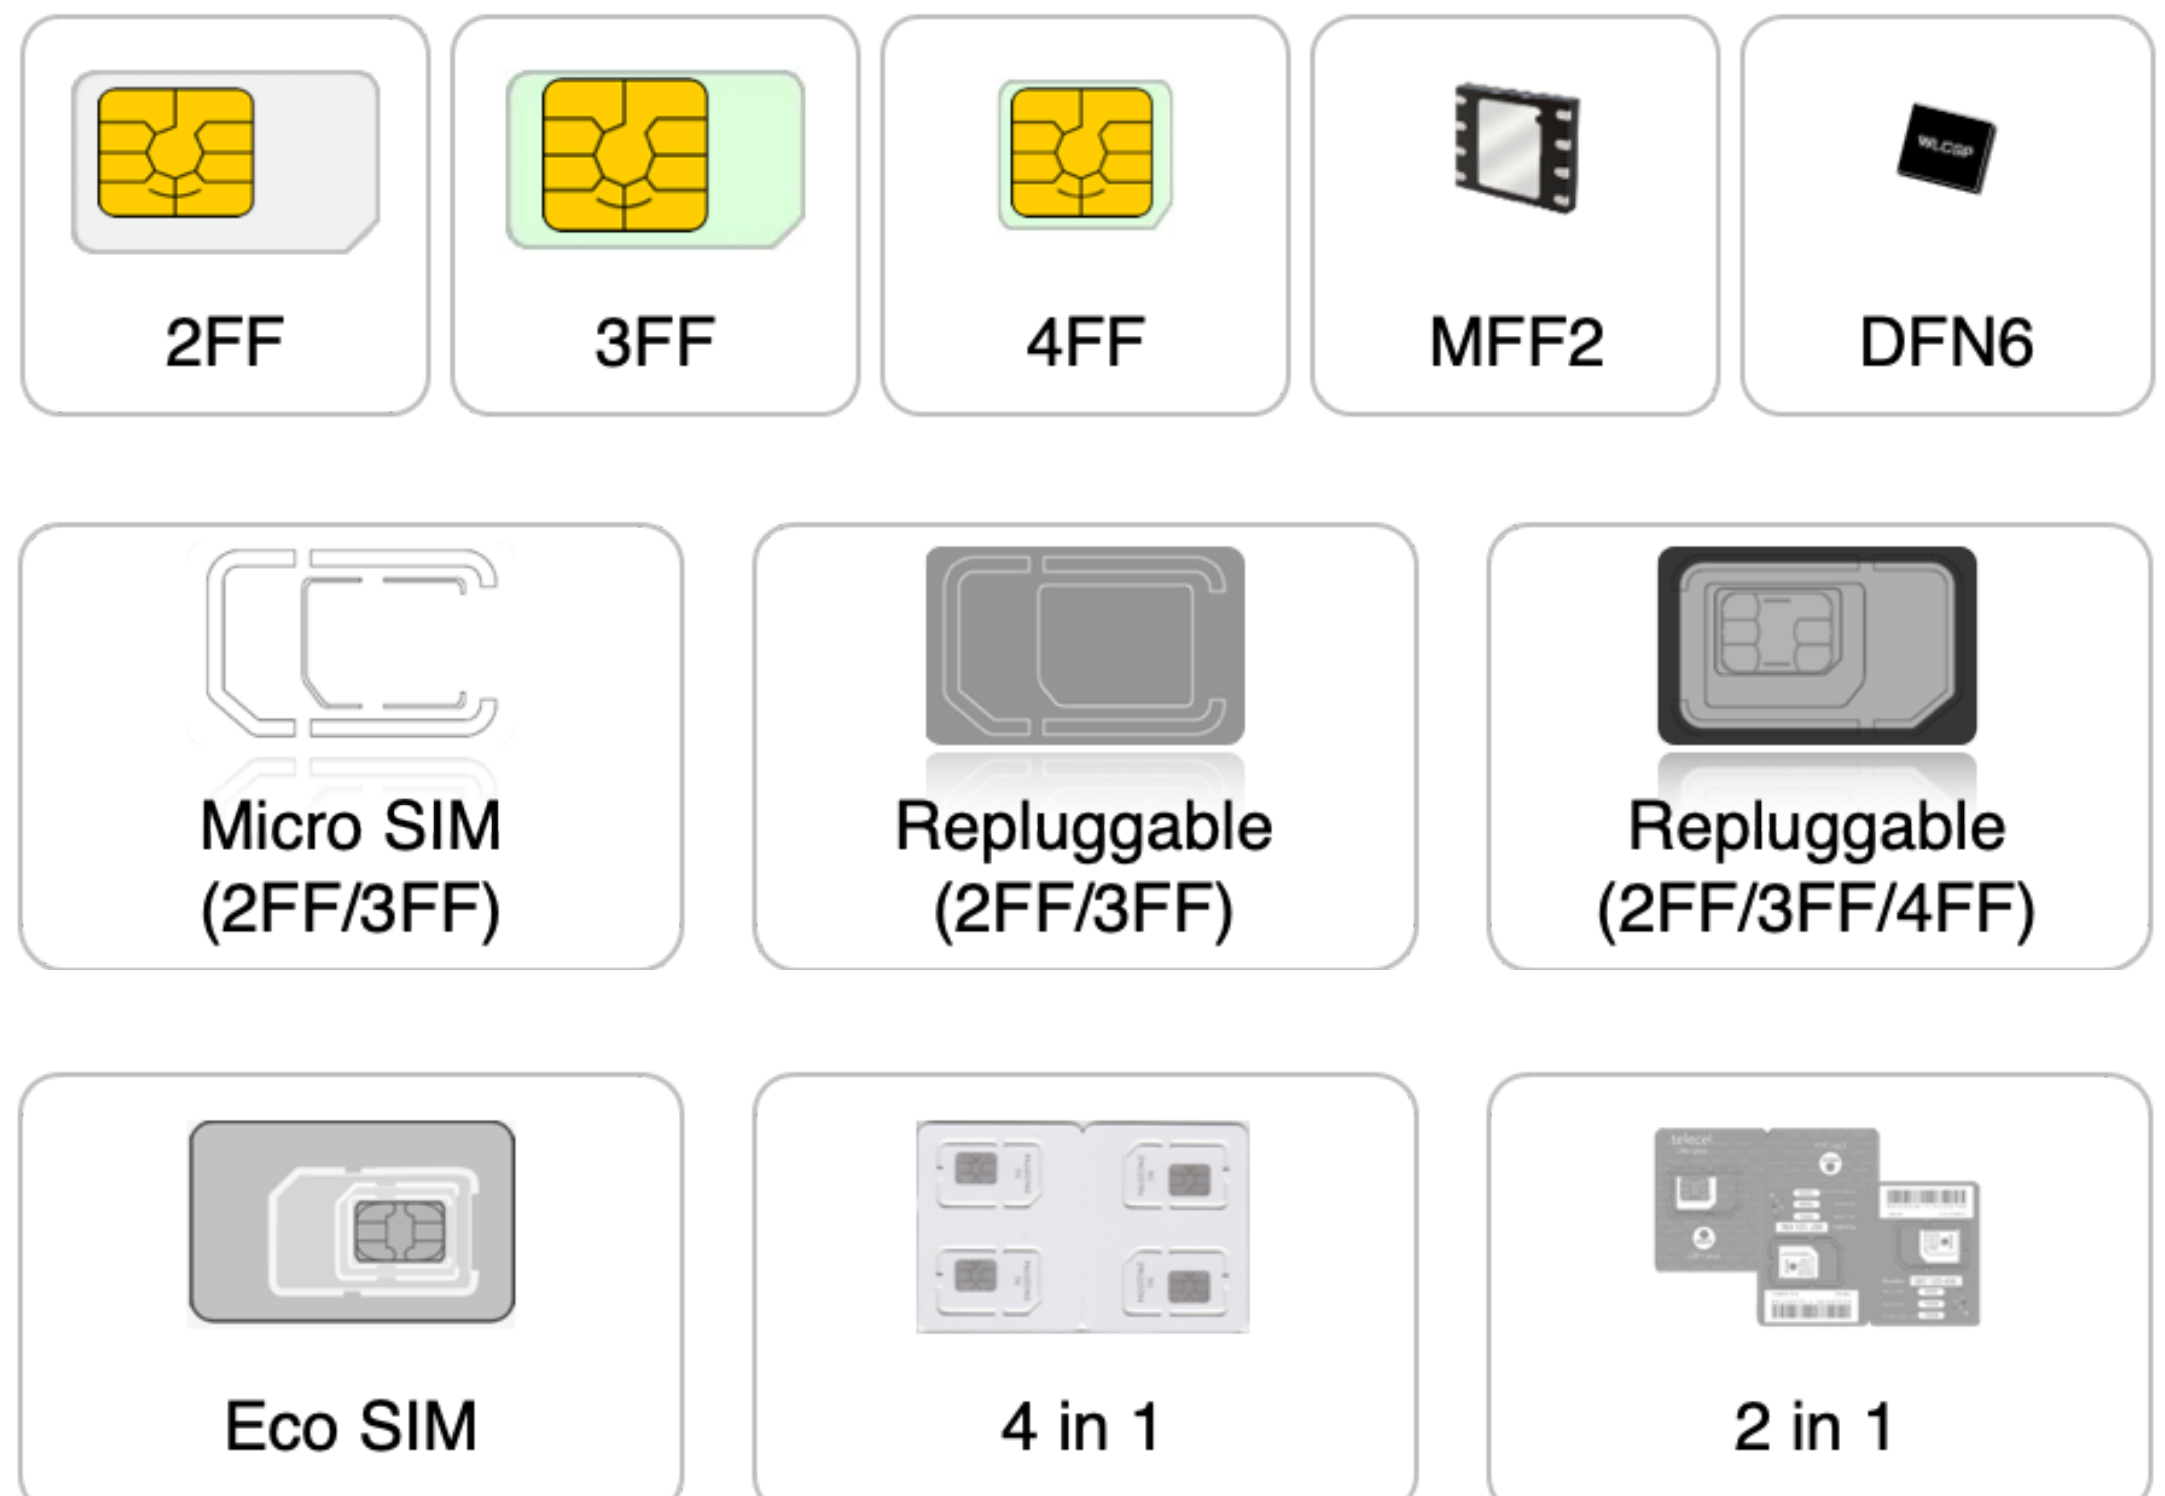

3 GRADES

ANY FULFILMENT PACKAGING

ANY FORM FACTOR / ANY MEMORY SIZE

QUALITY ✓

We provide top quality at competitive prices. Thanks to economies of scale, we can maximise operational resource efficiency.

Quality is in our DNA!

We do continuous testing on our products (BAP cards, new materials, field & environmental testing).

Our Quality Assurance Unit, who are experts in modem behavior, can manage your test plan or help you to define one.

SUSTAINABILITY ✓

We consider the environment in every aspect of our business: when we design our products, when we select our suppliers, and when we participate in any project! We want to be an active contributor to the Sustainable Development Goals (SDGs) set by the United Nations, which defines global sustainable development priorities and aspirations for 2030

ABOUT TRASNA

TRASNA is focused on Technology leadership providing semiconductors and its related software and services solutions for IOT mass deployment. TRASNA combines innovation in semiconductor design, secure Software, edge computing, AI and blockchain integration to deliver the most innovative and optimized System-On-Chip (SOC) to take advantage of huge IOT opportunities facilitated by the emergence of 5G in which networks can meet the communication needs of billions of connected objects and where the NB-IOT is part of 5G specifications.

TRASNA SOC embed RISC-V cores, i-SIM and GNSS, developed to offer the lowest BOM to the market to scale up the deployment of massive IOT. With its Telecom BU, TRASNA provide a unique offer with all products and services related to IOT connectivity such as eSIMs / eUICCs and expertise so its customers can build, innovate, and grow successful businesses in a constantly progressing environment.

We support and guide our customers through every step of their IoT device journey.

LIABILITY DISCLAIMER

IMPORTANT NOTICE – PLEASE READ CAREFULLY

By using this documentation, you agree to the TRASNA Solutions Technologies Limited and its subsidiaries (“TRASNA”) terms and conditions of use. TRASNA may change these terms and conditions at any time without notice to you. Furthermore, TRASNA reserves the right to make corrections, enhancements, and other changes to this document without notice to you.

TRASNA reserves the right to make changes without further notice to the product to improve reliability, function, or design. TRASNA does not assume any liability arising out of the application or use of any product or circuits described herein.

TRASNA does not give any representations or warranties, expressed or implied, as to the accuracy or completeness of such information and shall have no liability for the consequences of use of such information. If there are any discrepancies, ambiguities, or conflicts in TRASNA’s documentation, the Product Specification prevails. You represent that, with respect to your applications, you have all the necessary expertise to create and implement safeguards that anticipate dangerous consequences of failures, monitor failures and their consequences, and lessen the likelihood of failures that might cause harm, and to take appropriate remedial actions.

TRASNA assumes no liability for applications assistance or the design of customers’ products. You are solely responsible for the design, validation, and testing of your applications as well as for compliance with all legal, regulatory, and safety-related requirements concerning their applications. TRASNA’s products are not designed for use in life-critical medical equipment, support appliances, devices, or systems where malfunction of TRASNA’s products can reasonably be expected to result in personal injury. You may not use any TRASNA product in life-critical medical equipment.

TRASNA places a high value on product security, which is why the TRASNA product(s) identified in this documentation may be certified by various security certification bodies and/or may implement our own security measures as set forth herein. However, no level of security certification and/or built-in security measures can guarantee that TRASNA products are resistant to all forms of attacks. As such, it is your responsibility to determine if the level of security provided in an TRASNA product meets your needs both in relation to the TRASNA product alone, as well as when combined with other components and/or software for your end-product or application.

TRASNA does not take responsibility for any flaws in such cryptographic algorithms or open technologies or for any methods which have been or may be developed to bypass, decrypt or crack such algorithms or technologies. While robust security testing may be done, no level of certification can absolutely guarantee protections against all attacks, including, for example, against advanced attacks which have not been tested for, against new or unidentified forms of attack, or against any form of attack when using a TRASNA product outside of its specification or intended use, or in conjunction with other components or software which are used by you to create your end product or application.

TRASNA is not responsible for resistance against such attacks. As such, regardless of the incorporated security features and/or any information or support that may be provided by TRASNA, you are solely responsible for determining if the level of attacks tested for meets your needs, both in relation to the TRASNA product alone and when incorporated into your end-product or application.

All security features of TRASNA products (inclusive of any hardware, software, documentation, and the like), including but not limited to any enhanced security features added by TRASNA, are provided on an “AS IS” BASIS. AS SUCH, TO THE EXTENT PERMITTED BY APPLICABLE LAW, TRASNA DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, unless the applicable written and signed contract terms specifically provide otherwise.

No license, express or implied, to any intellectual property right is granted by TRASNA herein. Resale of TRASNA products with provisions different from the information set forth herein shall void any warranty granted by TRASNA for such product. All trademarks, service marks, trade names, product names, and logos appearing in this documentation are the property of their respective owners. All copyright rights are reserved by TRASNA. Any reproduction of the information contained herein in whole or in part is prohibited without the prior written permission of the copyright holder.

You will fully indemnify TRASNA and its representatives against any damages, costs, losses, and/or liabilities arising out your non-compliance with this Liability Disclaimer section. Information in this document supersedes and replaces information previously supplied in any prior versions of this document.
